CONTENTS OF VOLUME 285

Effects of Urapidil on Neurotransmitter Release in CNS Tissue In Vitro. *R. Jackisch, L. Kasakov, T. J. Feuerstein and G. Hertting* 5

Effects of Hypoxia and Cytidine (5′) Diphosphocholine on the Concentrations of Dopamine, Norepinephrine and Metabolites in Rat Hypothalamus and Striatum. *C. Saligaut, M. Daoust, N. Moore and F. Boismare* 25

The Effect of Interference in Catecholamine Biosynthesis on Captivity-Induced Jumping Stereotypy in Bank Voles (*Clethrionomys glareolus*). *F. O. Ödberg, D. Kennes, P. H. De Rycke and Y. Bouquet* 34

Evidence for a Central Muscarinic Action by 1-(2-Methyl-3-Hydroxy-5-Hydroxymethyl-4-Pyridyl)-6,7-Dihydroxy-1,2,3,4-Tetrahydroisoquinoline in Regulating Blood Pressure in the Anesthetized Dog. *P. M. L. Siu and J. A. Vick* 43

Acetaldehyde and Cardiac Arrhythmias. *G. A. Condouris and D. M. Havelin* . . . 50

Caffeine-Induced Contraction in Vascular Smooth Muscle. *H. Karaki, H. Y. Ahn and N. Urakawa* 60

Hydralazine-Relaxing Effect on Rat Aorta is not Mediated through Changes in ATPase Activity. *N. Eleno, F. Orallo, L. Botana, J. Espinosa and I. Cadavid* . . . 72

Effects of Norepinephrine on BAY K-8644-Induced Contraction in Porcine Coronary Artery. *B. Perlmutter, R. H. Kennedy, E. Seifen and M. Soulsby* 80

BAY K 8644, a Calcium Channel Agonist, Inhibits Renin Secretion In Vitro. *P. C. Churchill and M. C. Churchill* 87

Arachidonic Acid and Pulmonary Function in Heart-Lung-Preparation of Guinea-Pig: Modulation by PCO_2. *C. Bedetti, P. Del Basso, L. Argiolas and A. Carpi* 98

Labetalol Protects Against the Potentiation by Propranolol of the Bronchospasm to Norepinephrine in Guinea-Pigs. *W. Kreutner and C. Rizzo* 117

Involvement of Central Type Benzodiazepine and $GABA_A$ Receptor in the Protective Effect of Benzodiazepines in Stress-Induced Gastric Ulcers in Rats. *J. Kunchandy and S. K. Kulkarni* 129

Amrinone Action on Guinea-Pig Isolated Stomach Fundus. *P. Dorigo, R. M. Gaion, A. Giacometti, G. Ceroni, A. Marcomini and I. Maragno* 137

Anti-Ulcer and Membrane Stabilizing Actions of Zinc Acexamate. *C. J. Pfeiffer, O. Bulbena, J. V. Esplugues, G. Escolar, C. Navarro and J. Esplugues* 148

Comparative Effects of Pirenzepine and Atropine on Pancreatic Secretion in Conscious Rats. *J. Chariot, J. De La Tour, C. Vaille and C. Rozé* 158

The Action of Prostaglandin E_2 on the Rhythmic Activity of Circular Muscle of the Isolated Guinea-Pig Ileum. *L. Grbović and B. Ž. Radmanović* 166

Characterization of the α-Adrenoceptors Mediating Positive Inotropy of Rat Left Atria by Use of Selective Agonists and Antagonists. *K. L. Williamson and K. J. Broadley* 181

Does the β_1-Adrenoceptor Blocking Agent Celiprolol have α_2-Adrenoceptor Blocking Properties? *H. Pittner* 199

The Mode of Action of Ifenprodil Tartrate in Isolated Canine Cerebral and Femoral Arteries. *H. Honda and Y. Sakai* 211

Different Sensitivities of Arteries and Veins to Glyceryltrinitrate-Induced Relaxation and Tolerance: An "In Vitro" Study on Isolated Vessels from Rabbits. *R. Rösen, E. König and W. Klaus* 226

The Role of Substance P in the Human Urinary Bladder. *R. E. Kalbfleisch and E. E. Daniel* 238

Induction of Physical Dependence by Chronic Alcohol Treatment and Enhancement of Hepatic Metabolism of 7-Ethoxycoumarin and Subsequent Conjugation of Its Metabolite in Perfused Rat Livers. *S.-S. Hong, H.-K. Roh, M.-S. Dong and Y.-N. Cha* 249

Effects of Decarboxylase Inhibitors on Muricidal Suppression by L-dopa in Thiamine Deficient Rats. *K. Onodera* 263

Studies on GABAergic Mechanisms Responsible for Cardiovascular Regulation in the Rostral Ventrolateral Medulla of the Rat. *T. Kubo and M. Kihara* 277

Effects of Chrysanthemum Indicum Linn. on Coronary, Vertebral, Renal and Aortic Blood Flows of the Anesthetized Dog. *T. Kato, K. Noguchi, Y. Miyamoto, M. Suekawa, M. Aburada, E. Hosoya and M. Sakanashi* 288

The Role of the Renin-Angiotensin System in Normotensive and Hypertensive Rats with Varying Renin Status. *J. Atkinson, N. Boillat, A. Essadki, P. Lüthi, B. Maranda and M. Sonnay* 301

Effects of α-Bungarotoxin and *d*-Tubocurarine on the Post-Tetanic Potentiation of the Mouse Diaphragm Twitch Tension. *M. C. Tsai, M. L. Chen and T. R. Wang* . . 316

Action of a Semi-Purified Extract of *Pseudophryne coriacea* Skin on the Frog Rectus Abdominis Muscle. *G. Falconieri Erspamer and C. Severini* 324
